Newborn Anne

Newborn Anne realistically represents a full term newborn female designed for skills training in neonatal resuscitation.

- Educationally effective allowing specific neonatal resuscitation skills to be taught individually or in combination with other skills
- Realistic anatomical landmarks and durable design simulate a full-term female newborn
- Lightweight and portable design allows Newborn Anne to be highly mobile for use in multiple clinical settings

- Newborn Anne is easy to use and was designed to be integrated into all neonatal clinical training curriculums

- Built from the SimNewB platform developed in conjunction with the American Academy of Pediatrics (AAP), Newborn Anne was specifically designed to be clinically relevant with manikin features to meet key Neonatal Resuscitation Program (NRP) course skills

220-25050 Newborn Anne

Newborn Anne Includes:

Full-body neonatal manikin, umbilical cord, clamp, airway lubricant, simulated blood, liquid soap, baby pants and carry case.
