

Laura L. Crouch, RN, EdD, CPAN, CNE

Associate Clinical Professor, Northern Arizona University

Laura has actively pursued her interest in education through human-patient simulation. She has been working with manikins for many years. As a hospital nurse, she taught ACLS with static and more recently high-fidelity human patient simulators. As a nurse educator, she has been working with static manikins and high-fidelity human patient simulators for over 8 years.

Laura recently completed her doctoral degree in education. Her focus was in curriculum and instruction with an emphasis on technology – specifically high-fidelity human patient simulation in nursing education.
