

## Teri Kiehn, MS, RNc

*Clinical Coordinator*

Teri Kiehn's clinical background involves over 25 years experience in Women and Newborn care including Labor & Delivery, NICU, Mother/Baby care, and Neonatal transport. She has a masters degree in Nursing Leadership in Healthcare Systems and a post-masters certificate in healthcare informatics. Teri served as the Intermountain Healthcare system co-chair for simulation during development of their 5 year simulation strategic plan and sits on the system Simulation Guidance Council. She also serves as the lead for the Intermountain Healthcare Women and Newborns Perinatal simulation programs and assisted with development of the Intermountain simulation instructor course.

Teri is responsible for oversight during the development and implementation of the Perinatal simulation programs. She has participated in simulation courses at Wisser Simulation Center, Stanford Center for Pediatric and Perinatal Education, and the Gordon Center for Research in Medical Education.
