

Carly Williams

Simulation Specialist, Northwest Hospital and Medical Center

Carly Williams is a Simulation Specialist at Northwest Hospital and Medical Center, in the Community Health Education and Simulation Center (CHESC). The CHESC is a centralized, hands-on education and training venue for healthcare professionals, students and the community. In the interim, Carly serves as the Web Master for the Pacific Northwest Healthcare Simulation Collaborative. Prior to joining Northwest Hospital & Medical Center, Carly Williams worked as an Information Technology Analyst at AT&T in the Information Security Department. Carly Williams holds a B.S. with honors in Psychology from Montana State University Billings.
